NAX·B

ProDouble

ProDouble is born with the intention to interpret space following visual uniformity, around a common idea of the color.

The elegance of simplicity, a timeless style, the minimalism which becomes an expressive language.

ProDouble

It tells about the performance of the porcelain stoneware in its elegant simplicity, in its nuances.

The practical and casual character of the collection is revealed through 8 colors. The chromatic variations of ProDouble are made of mottles and unpredictable movements much requested by contemporary designers.
